

AMENDMENTS TO THE CLAIMS

Please cancel claims 10 and 16 without prejudice or disclaimer of its underlying subject matter.

Please amend the claims as follows.

1-11. (Canceled)

12. (Previously presented) A display language conversion system in an image processing system by a computer comprising:

storage means adapted to store data base data, said data base data including image data, first language data and second language data;

an image display processing means adapted to read said data base data from said storage means and to convert said data base data into display data for display on a display means as a screen, said screen including a blowoff frame, said first language data being displayed within said blowoff frame; and

another-language display processing means adapted to determine a position of a mouse pointer on said screen,

wherein, when said mouse pointer is positioned at said blowoff frame, said another-language display processing means reads said second language data from said storage means and displays said second language data on said display means,

wherein said another-language display processing means overlays said first language data with said second language data to display said second language data,

wherein said another-language display processing means displays said second language data until said mouse pointer is positioned at another blowoff frame.

13. (Canceled)

14. (Currently amended) A storage medium that stores a program for functioning a computer as the display language conversion system according to claim 12, ~~any one of claims 10 and 12~~.

15. (Currently amended) An information selling system comprising a server device and a terminal device connected to the server device through a communication system, the server device being the display language conversion system according to claim 12, ~~any one of claims 10 and 12~~.

16. (Canceled)
